

#EVHOLE CARDS

An EVHOLE is an EV Owner who is an Asshole. (Sorry, but they do exist)

The following cards are for EVs who block Charging Spots.

If these are too nasty for you then download the friendly ones at <http://EVnovice.com>

(Print just the pages you want. The black & white ones and light colored ones save you ink)

Print these out and leave them in your car so that you're ready when an EV Charging Station is Blocked by an Electric Vehicle

Bring a Sharpie with you and write their license plate number on the back of the printout. They'll take it with them and not throw it on the ground.

Please don't be an EVHOLE, it's not a good thing!

#EVHOLE Description:

A Charging Spot is not a Parking Spot.
You plug in, You fill up and You move ASAP.

If you don't need a charge, park with the Gasoline cars. Don't block the EV Charging Spot!

#EVHOLE

A Charging Spot is not a preferred parking spot because YOU bought an Electric Vehicle.
You must be plugged in and be actively charging.

Or you may be labeled as an #EVHOLE
www.EVHOLE.com + www.EVHOLES.com

Some people want really **nasty** cards and here are the worst I have. If they are not evil enough for you you'll have to make your own!

The NASTY ones are on the last pages

Are you a PHEV HOLE?

www.PhevHole.com

Are you a neanderthal? To be parked here you must be plugged in and be actively charging.

*my license number & state is:
(vehicle registration plate)*

download at EVHOLES.com

**As soon as your car is full you need to move ASAP.
If you do not need a charge then don't park here!!**

If you find a Tesla only Parking in a Tesla SuperCharger then plug them in.

Grab the charging handle and bring it close to the charge port and press the button. Their charging port will open and then plug them in.

They'll get IDLE fees.

You may want to wear a disguise. Because Sentry mode might be on.

Here's a fun mask for like \$8 on amazon: add a rubber band, cut out eye-holes and you'll be set.

Elon Musk Celebrity Mask, Card Face and by Celebrity Cutouts Fancy Dress Mask
★★★★★ 1 customer review
Price: \$5.96 + \$2.98 shipping

After you plugged them in write their license plate on the back on this print-out and leave under their wiper blades. Take some pics and post on TESHOLE.com

Tesla Charging Stations, (SuperCharger & Destination)

Are to be used to charge your vehicle and then leave when you're full. They are NOT preferred parking spaces because you bought a Tesla.

Other Tesla owners may need to charge.

I've plugged you in and I hope you get a lot of idle fees. Hopefully you'll learn your lesson.

Please don't be an #EVHOLE (TESHOLE)
