

#EVHOLE CARDS

An EVHOLE is an EV Owner who is an Asshole. (Sorry, but they do exist)

The following cards are for EVs who block Charging Spots.

(if these are too nasty for you then download the friendly ones at <http://EVnovice.com>)

(Print just the pages you want. The black & white ones and light-colored ones save you ink)

Print these out and leave them in your car so that you're ready when an EV Charging Station is Blocked by an Electric Vehicle

Bring a Sharpie with you and write their license plate number on the printout. They'll take it with them and not throw it on the ground.

Please don't be an EVHOLE, it's not a good thing!

#EVHOLE Description:

A Charging Spot is not a Parking Spot.
You plug in, You fill up and You move ASAP.

If you don't need a charge, park with the Gasoline cars. Don't block the EV Charging Spot!

#EVHOLE

A Charging Spot is not a preferred parking spot because YOU bought an Electric Vehicle.
You must be plugged in and be actively charging.

Or you may be labeled as an #EVHOLE

Please don't be an EVHOLE, it's not a good thing!

**Are you a neanderthal? To be parked here you must
be plugged in and be actively charging.**

**As soon as your car is full you need to move ASAP.
If you do not need a charge then don't park here!!**

Dear Parking Officer, I enjoy littering, but I also will pay whatever fines you deem necessary.
Please use my License Plate number below to obtain my mailing address from my vehicle registration.
Thank You.
